Petitioner:

Beneficiary:

PETITION:

Immigrant Petition for Alien Worker as a Member of the Professions Holding an Advanced Degree or an Alien of Exceptional Ability Pursuant to Section 203(b)(2) of the Immigration and Nationality Act, 8 U.S.C. § 1153(b)(2)

ON BEHALF OF PETITIONER:

[REDACTED]

INSTRUCTIONS:

Enclosed please find the decision of the Administrative Appeals Office in your case. All of the documents related to this matter have been returned to the office that originally decided your case. Please be advised that any further inquiry that you might have concerning your case must be made to that office.

If you believe the law was inappropriately applied by us in reaching our decision, or you have additional information that you wish to have considered, you may file a motion to reconsider or a motion to reopen. The specific requirements for filing such a request can be found at 8 C.F.R. § 103.5. All motions must be submitted to the office that originally decided your case by filing a Form I-290B, Notice of Appeal or Motion, with a fee of \$630. Please be aware that 8 C.F.R. § 103.5(a)(1)(i) requires that any motion must be filed within 30 days of the decision that the motion seeks to reconsider or reopen.

Thank you,

A handwritten signature in black ink, appearing to read "Perry Rhew". Below the signature, the word "for" is written in a smaller, cursive font.

Perry Rhew
Chief, Administrative Appeals Office

DISCUSSION: The Director, Texas Service Center, denied the employment-based immigrant visa petition, which is now before the Administrative Appeals Office (AAO) on appeal. The AAO will withdraw the director's decision; however, because the petition is not approvable, it is remanded for further action and consideration.

The petitioner is an IT consulting business. It seeks to employ the beneficiary permanently in the United States as a senior software engineer pursuant to section 203(b)(2) of the Immigration and Nationality Act (the Act), 8 U.S.C. § 1153(b)(2). As required by statute, an ETA Form 9089, Application for Permanent Employment Certification, approved by the U.S. Department of Labor (DOL), accompanied the petition. Upon reviewing the petition, the director determined that the beneficiary did not qualify for the second preference classification. Specifically, the director determined that the beneficiary did not possess a Master's degree in computer applications, math, or mechanical engineering.

On appeal, counsel submits a brief and two evaluations regarding the beneficiary's educational background. The AAO will withdraw the director's decision.

In pertinent part, section 203(b)(2) of the Act provides immigrant classification to members of the professions holding advanced degrees or their equivalent and whose services are sought by an employer in the United States. An advanced degree is a U.S. academic or professional degree or a foreign equivalent degree above the baccalaureate level. 8 C.F.R. § 204.5(k)(2). The regulation further states: "A United States baccalaureate degree or a foreign equivalent degree followed by at least five years of progressive experience in the specialty shall be considered the equivalent of a master's degree. If a doctoral degree is customarily required by the specialty, the alien must have a U.S. doctorate or a foreign equivalent degree." *Id.*

The beneficiary earned a foreign three-year Bachelor of Science degree in mathematics, physics, and chemistry in 1996 from [REDACTED] in [REDACTED] and a foreign three-year Master of Computer Applications degree in 2001 from [REDACTED] in [REDACTED]. Thus, the issues are whether those degrees qualify the beneficiary for the classification sought and meet the specified job requirements.

Eligibility for the Classification Sought

As noted above, DOL certified the ETA Form 9089 in this matter. DOL determines whether there are sufficient workers who are able, willing, qualified and available and whether the employment of the alien will adversely affect the wages and working conditions of workers in the United States similarly employed. Section 212(a)(5)(A)(i) of the Act; 20 C.F.R. § 656.1(a).

It is significant that none of the above inquiries assigned to DOL, or the remaining regulations implementing these duties under 20 C.F.R. § 656, involve a determination as to whether or not the alien is qualified for a specific immigrant classification or even the job offered. Federal courts have recognized this division of authority. *See Tongatapu Woodcraft Hawaii, Ltd. v. Feldman*, 736 F. 2d 1305, 1309 (9th Cir. 1984); *Madany v. Smith*, 696 F.2d 1008, 1012-1013 (D.C. Cir. 1983).

A U.S. baccalaureate degree is generally requires four years of education. *Matter of Shah*, 17 I&N Dec. 244 (Reg'l. Comm'r. 1977). This decision involved a petition filed under 8 U.S.C. §1153(a)(3) as amended in 1976. At that time, this section provided:

Visas shall next be made available . . . to qualified immigrants who are members of the professions

The Act added section 203(b)(2)(A) of the Act, 8 U.S.C. §1153(b)(2)(A), which provides:

Visas shall be made available . . . to qualified immigrants who are members of the professions holding advanced degrees or their equivalent

Significantly, the statutory language used prior to *Matter of Shah*, 17 I&N Dec. at 244 is identical to the statutory language used subsequent to that decision but for the requirement that the immigrant hold an advanced degree or its equivalent. The Joint Explanatory Statement of the Committee of Conference, published as part of the House of Representatives Conference Report on the Act, provides that “[in] considering equivalency in category 2 advanced degrees, it is anticipated that the alien must have a bachelor’s degree with at least five years progressive experience in the professions.” H.R. Conf. Rep. No. 955, 101st Cong., 2nd Sess. 1990, 1990 U.S.C.C.A.N. 6784, 1990 WL 201613 at *6786 (Oct. 26, 1990).

At the time of enactment of section 203(b)(2) of the Act in 1990, it had been almost thirteen years since *Matter of Shah* was issued. Congress is presumed to have intended a four-year degree when it stated that an alien “must have a bachelor’s degree” when considering equivalency for second preference immigrant visas. The AAO must assume that Congress was aware of the agency’s previous treatment of a “bachelor’s degree” under the Act when the new classification was enacted and did not intend to alter the agency’s interpretation of that term. *See Lorillard v. Pons*, 434 U.S. 575, 580-81 (1978) (Congress is presumed to be aware of administrative and judicial interpretations where it adopts a new law incorporating sections of a prior law). In fact, the Senate Conference Report for the Act presumes that a baccalaureate is a “4-year course of undergraduate study.” S. Rep. No. 101-55 at 20 (1989). *See also* 56 Fed. Reg. 60897, 60900 (Nov. 29, 1991) (an alien must have at least a bachelor’s degree).

In 1991, when the final rule for 8 C.F.R. § 204.5 was published in the Federal Register, the Immigration and Naturalization Service (the Service), responded to criticism that the regulation required an alien to have a bachelor’s degree as a minimum and that the regulation did not allow for the substitution of experience for education. After reviewing section 121 of the Immigration Act of 1990, Pub. L. 101-649 (1990), and the Joint Explanatory Statement of the Committee of Conference, the Service specifically noted that both the Act and the legislative history indicate that an alien must have at least a bachelor’s degree:

The Act states that, in order to qualify under the second classification, alien members of the professions must hold “advanced degrees or their equivalent.” As the legislative history . . . indicates, the equivalent of an advanced degree is “a bachelor’s

degree with at least five years progressive experience in the professions.” Because neither the Act nor its legislative history indicates that bachelor’s or advanced degrees must be United States degrees, the Service will recognize foreign equivalent degrees. But both the Act and its legislative history make clear that, in order to qualify as a professional under the third classification or to have experience equating to an advanced degree under the second, *an alien must have at least a bachelor’s degree.*

56 Fed. Reg. 60897, 60900 (Nov. 29, 1991) (emphasis added).

There is no provision in the statute or the regulations that would allow a beneficiary to qualify under section 203(b)(2) of the Act as a member of the professions holding an advanced degree with anything less than a full baccalaureate degree (plus the requisite five years of progressive experience in the specialty). More specifically, a three-year bachelor’s degree will not be considered to be the “foreign equivalent degree” to a U.S. baccalaureate degree. *Matter of Shah*, 17 I&N Dec. at 245. Where the analysis of the beneficiary’s credentials relies on work experience alone or a combination of multiple lesser degrees, the result is the “equivalent” of a bachelor’s degree rather than a “foreign equivalent degree.”¹ In order to have experience and education equating to an advanced degree under section 203(b)(2) of the Act, the beneficiary must have a single degree that is the “foreign equivalent degree” to a U.S. baccalaureate degree (plus the requisite five years of progressive experience in the specialty). 8 C.F.R. § 204.5(k)(2).

For this classification, advanced degree professional, the regulation at 8 C.F.R. § 204.5(k)(3)(i)(B) requires the submission of an “official academic record showing that the alien has a U.S. baccalaureate degree or a foreign equivalent degree” (plus evidence of five years of progressive experience in the specialty). For classification as a member of the professions, the regulation at 8 C.F.R. § 204.5(l)(3)(ii)(C) requires the submission of “an official college or university record showing the date the baccalaureate degree was awarded and the area of concentration of study.” The AAO cannot conclude that the evidence required to demonstrate that an alien is an advanced degree professional is any less than the evidence required to show that the alien is a professional. To do so would undermine the congressionally mandated classification scheme by allowing a lesser evidentiary standard for the more restrictive visa classification. Moreover, the commentary accompanying the proposed advanced degree professional regulation specifically states that a “baccalaureate means a bachelor’s degree received from a college or university, or an equivalent degree.” (Emphasis added.) 56 Fed. Reg. 30703, 30306 (July 5, 1991). Compare 8 C.F.R. § 204.5(k)(3)(ii)(A) (relating to aliens of exceptional ability requiring the submission of “an official academic record showing that the alien has a degree, diploma, certificate or similar award from a college, university, school or other institution of learning relating to the area of exceptional ability”).

¹ Compare 8 C.F.R. § 214.2(h)(4)(iii)(D)(5) (defining for purposes of a nonimmigrant visa classification, the “equivalence to completion of a college degree” as including, in certain cases, a specific combination of education and experience). The regulations pertaining to the immigrant classification sought in this matter do not contain similar language.

The petitioner submitted evaluations from Dr. [REDACTED] of [REDACTED]
[REDACTED] and from Dr. [REDACTED] also of [REDACTED] both dated
October 6, 2008. Dr. [REDACTED] notes that [REDACTED] Bachelor of Science program is
accredited. He indicates that he is a member of the American Association of Collegiate Registrars
and Admissions Officers (AACRAO). Dr. [REDACTED] states that the beneficiary completed both
generalized and specialized studies for his three-year Bachelor of Science degree and concludes that
this degree represents the equivalent of completing three years of undergraduate coursework from an
accredited institution in the United States. He asserts that [REDACTED] requires the
completion of university-level studies and comprehensive entrance exams for entrance into its
Master's level programs.

Dr. [REDACTED] equates the beneficiary's first year of his Master's program in computer applications to
a final year of undergraduate study in the United States and second and third years to a Master's
degree from an accredited institution in the United States. He states that he bases his analysis on the
course of the beneficiary's studies, the number of credit units, the number of years of coursework,
the grades the beneficiary earned, and the beneficiary's final diplomas. Dr. [REDACTED] highlights the
reputations of both universities as well as the beneficiary's total hours of coursework completed. He
concludes that the beneficiary possesses the educational equivalent of a Master of Science in
computer science from an accredited institution of higher learning in the United States.

Dr. [REDACTED] takes a different approach when evaluating the beneficiary's educational equivalency in the
United States. Instead of focusing on the beneficiary's educational background alone, he also
focuses on the beneficiary's more than seven years of work experience in the job offered before the
priority date of December 6, 2007.

Dr. [REDACTED] concludes that, based upon the beneficiary's academic qualifications alone, the beneficiary
possesses the equivalent to a Master of Science degree in computer science. He also concludes that,
based upon the beneficiary's academic qualifications and professional experience, the beneficiary
possesses the equivalent to a Bachelor of Science degree in computer information systems.

Dr. [REDACTED] states that the beneficiary's work experience was progressively sophisticated with
increased responsibility in non-managerial and managerial capacities over time, thus it was equal to
bachelor's level training. He also uses the rule to equate three years of experience for one year of
education, but that equivalence applies to non-immigrant H1B petitions, not to immigrant petitions.
See 8 CFR § 214.2(h)(4)(iii)(D)(5).

The AAO finds that the conclusions of both evaluators are consistent with the beneficiary's
transcripts that the petitioner provided. USCIS may, in its discretion, use as advisory opinions
statements submitted as expert testimony. However, where an opinion is not in accord with other
information or is in any way questionable, the Service is not required to accept or may give less
weight to that evidence. *Matter of Caron International*, 19 I&N Dec. 791, 795 (Comm'r 1988);
Matter of Sea, Inc., 19 I&N Dec. 817, 820 (Comm'r 1988).

Moreover, the AAO has consulted the Electronic Database for Global Education (EDGE) as a tool to help analyze the beneficiary's educational background. According to its website, AACRAO, which created EDGE is "a nonprofit, voluntary, professional association of more than 11,000 higher education admissions and registration professionals who represent more than 2,600 institutions and agencies in the United States and in over 40 countries around the world.." See <http://www.aacrao.org/About-AACRAO.aspx> (accessed July 22, 2011). Its mission "is to provide professional development, guidelines and voluntary standards to be used by higher education officials regarding the best practices in records management, admissions, enrollment management, administrative information technology and student services." *Id.* In *Confluence Intern., Inc. v. Holder*, 2009 WL 825793 (D. Minn. March 27, 2009), a federal district court determined that the AAO provided a rational explanation for its reliance on information provided by AACRAO to support its decision.

According to the login page, EDGE is "a web-based resource for the evaluation of foreign educational credentials" that is continually updated and revised by staff and members of AACRAO. Dale E. Gough, Director of International Education Services, "AACRAO EDGE Login," <http://aacraoedge.aacrao.org/> (accessed July 22, 2011). In *Tisco Group, Inc. v. Napolitano*, 2010 WL 3464314 (E.D.Mich. August 30, 2010), a federal district court found that USCIS had properly weighed the evaluations submitted and the information obtained from EDGE to conclude that the alien's three-year foreign "baccalaureate" and foreign "Master's" degree were comparable to a U.S. bachelor's degree. In *Sunshine Rehab Services, Inc.*, 2010 WL 3325442 (E.D.Mich. August 20, 2010), a federal district court upheld a USCIS conclusion that the alien's three-year bachelor's degree was not a foreign equivalent degree to a U.S. bachelor's degree. Specifically, the court concluded that USCIS was entitled to prefer the information in EDGE and did not abuse its discretion in reaching its conclusion. The court also noted that the alien employment certification itself required a degree and did not allow for the combination of education and experience.

EDGE discusses the Master of Computer Applications degree in [REDACTED] EDGE states that this degree requires completion of three years of study beyond a three-year bachelor's degree and concludes that completion of a Master of Computer Applications represents attainment of a level of education comparable to a Master's degree in the United States. The AAO notes that EDGE states that the degree is comparable to a Master of Computer Applications not a Master of Science. Nevertheless, the ETA 9089 in this matter states that the job requires a Master's degree in computer applications.

Because the beneficiary has a U.S. advanced degree or foreign equivalent degree, he does qualify for preference visa classification as an advanced degree professional under section 203(b)(2) of the Act.

Qualifications for the Job Offered

Relying in part on *Madany*, 696 F.2d at 1008, the U.S. Federal Court of Appeals for the Ninth Circuit (Ninth Circuit) stated:

[I]t appears that the DOL is responsible only for determining the availability of suitable American workers for a job and the impact of alien employment upon the

domestic labor market. It does not appear that the DOL's role extends to determining if the alien is qualified for the job for which he seeks sixth preference status. That determination appears to be delegated to the INS under section 204(b), 8 U.S.C. § 1154(b), as one of the determinations incident to the INS's decision whether the alien is entitled to sixth preference status.

K.R.K. Irvine, Inc. v. Landon, 699 F.2d 1006, 1008 (9th Cir. 1983). The court relied on an amicus brief from DOL that stated the following:

The labor certification made by the Secretary of Labor ... pursuant to section 212(a)[(5)] of the ... [Act] ... is binding as to the findings of whether there are able, willing, qualified, and available United States workers for the job offered to the alien, and whether employment of the alien under the terms set by the employer would adversely affect the wages and working conditions of similarly employed United States workers. *The labor certification in no way indicates that the alien offered the certified job opportunity is qualified (or not qualified) to perform the duties of that job.*

(Emphasis added.) *Id.* at 1009. The Ninth Circuit, citing *K.R.K. Irvine, Inc.*, 699 F.2d at 1006, revisited this issue, stating: "The INS, therefore, may make a de novo determination of whether the alien is in fact qualified to fill the certified job offer." *Tongatapu*, 736 F. 2d at 1309.

The key to determining the job qualifications is found on ETA Form 9089 Part H. This section of the application for alien employment certification, "Job Opportunity Information," describes the terms and conditions of the job offered. It is important that the ETA Form 9089 be read as a whole.

Moreover, when determining whether a beneficiary is eligible for a preference immigrant visa, USCIS may not ignore a term of the alien employment certification, nor may it impose additional requirements. *See Madany*, 696 F.2d at 1015. USCIS must examine "the language of the labor certification job requirements" in order to determine what the job requires. *Id.* The only rational manner by which USCIS can be expected to interpret the meaning of terms used to describe the requirements of a job in an alien employment certification is to examine the certified job offer *exactly* as it is completed by the prospective employer. *See Rosedale Linden Park Company v. Smith*, 595 F. Supp. 829, 833 (D.D.C. 1984) (emphasis added). USCIS's interpretation of the job's requirements, as stated on the alien employment certification must involve reading and applying *the plain language* of the alien employment certification application form. *See id.* at 834. USCIS cannot and should not reasonably be expected to look beyond the plain language of the alien employment certification that DOL has formally issued or otherwise attempt to divine the employer's intentions through some sort of reverse engineering of the alien employment certification.

In this matter, Part H, line 4, of the alien employment certification reflects that a Master's degree in computer applications is the minimum level of education required. Line 7-A states that a Master's degree in math or mechanical engineering is otherwise acceptable. Line 6 reflects that no

combination of education or experience is acceptable in the alternative. Line 9 reflects that a foreign educational equivalent is acceptable.

For the reasons stated above, the beneficiary does have the education required for the job as specified on the alien employment certification. The beneficiary does have a Master's degree and, thus, does qualify for preference visa classification under section 203(b)(2) of the Act. In addition, the beneficiary does meet the job requirements on the alien employment certification.

However, the AAO notes that the petitioner has failed to provide evidence of its ability to pay the beneficiary the proffered wage of \$63,523.00 from the priority date of December 6, 2007 onwards. The regulation at 8 C.F.R. § 204.5(g)(2) states:

Ability of prospective employer to pay wage. Any petition filed by or for an employment-based immigrant which requires an offer of employment must be accompanied by evidence that the prospective United States employer has the ability to pay the proffered wage. The petitioner must demonstrate this ability at the time the priority date is established and continuing until the beneficiary obtains lawful permanent residence. Evidence of this ability shall be either in the form of copies of annual reports, federal tax returns, or audited financial statements.

The petitioner has failed to submit a copy of its 2007 federal tax return filed with the Internal Revenue Service (IRS), its 2007 annual report, or its 2007 audited financial statement. The AAO accordingly is unable to assess the petitioner's ability to pay at this time.

During the adjudication of the appeal, the AAO has also discovered that the petitioning business in this matter is not in good standing with Texas law according to the Texas Comptroller of Public Accounts' official website. If the petitioning business is no longer an active business in compliance with Texas law, the petition and its appeal to this office have become moot.²

Moreover, any such concealment of the true status of the organization by the petitioner seriously compromises the credibility of the remaining evidence in the record. *See Matter of Ho*, 19 I&N Dec. 582, 586 (BIA 1988)(stating that doubt cast on any aspect of the petitioner's proof may lead to a reevaluation of the reliability and sufficiency of the remaining evidence offered in support of the visa petition.) The petitioner must resolve any inconsistencies in the record by independent objective evidence, and attempts to explain or reconcile such inconsistencies, absent competent objective evidence pointing to where the truth, in fact, lies, will not suffice. *See Id.*

² Where there is no active business, no *bona fide* job offer exists, and the request that a foreign worker be allowed to fill the position listed in the petition has become moot. Additionally, even if the appeal could be otherwise sustained, the petition's approval would be subject to automatic revocation pursuant to 8 C.F.R. § 205.1(a)(iii)(D) which sets forth that an approval is subject to automatic revocation without notice upon termination of the employer's business in an employment-based preference case.

Therefore, this matter will be remanded. The director must issue a new denial notice, containing specific findings that will afford the petitioner the opportunity to present a meaningful appeal. As always in these proceedings, the burden of proof rests solely with the petitioner. Section 291 of the Act, 8 U.S.C. § 1361.

ORDER: The director's decision is withdrawn; however, the petition is currently unapprovable for the reasons discussed above, and therefore the AAO may not approve the petition at this time. Because the petition is not approvable, the petition is remanded to the director for issuance of a new, detailed decision which, if adverse to the petitioner, is to be certified to the Administrative Appeals Office for review.
